

ProduceGood is a food rescue nonprofit that can help get your excess harvest to those in need

Farmers! If you have a bumper crop this season, we can help!

- We can pick up your surplus directly from your farm
- You will receive a tax receipt for your donation
- Produce will be donated to a feeding agency to be distributed the same day
- We can assist with harvesting if needed

You may have already seen ProduceGood collecting unsold produce from local farmers markets over the last few years. We can also pick up any surplus harvest from your farm in San Diego County!

Please let us know if you might have a bumper crop and we can schedule a pickup from your farm and deliver the bounty to a local feeding agency. You will receive a tax receipt for your donation and you will be feeding the hungry of San Diego, where 1 in 4 people do not know where their next meal is coming from.
